Message

Following is the BACT study we conducted for VOCs. We can discuss it further next week if you have any questions.

We are looking forward to seeing you Tuesday, November 12, 1996. I understand you will arrive about noon, and will stay until 5:00. We have planned a luncheon for noon, followed by a short presentation about recent projects as well as our upcoming facility expansion. We will then tour both the mine and surface facilities.

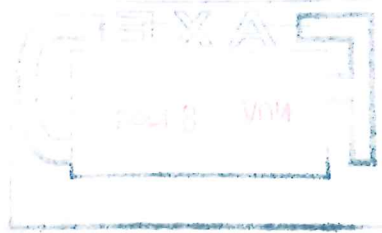

We look forward to seeing both of you. I will need to know on Monday how many people will be coming and if any are from some other organization.

Let me know if you have any questions, if not, I'll see you Tuesday.

Sincerely,

Dolly A. Potter
